# Doctor/Exam Doctor/Tech CA Check Out

We're going to book your next appointment called the Doctor's Report. It is VITAL that you dully understand exactly what's going on with your body, prior to making any decisions regarding your health.

We find our patients who FULLY UNDERSTAND how their bodies function and how modern Chiropractic works, get superior results. This is what we want for you.

# **Doctor/Exam Doctor/Tech CA Check Out**

The Doctors Report will teach you how **to get well and stay well, save time and money, the research and benefits behind chiropractic, the different types of care we offer.**

I'd like to say it's by invitation, but it's our office policy that everyone attends. It's the first half of your Report of Findings. This way you'll understand the second half which is your individual Report of Findings.

It is also office policy that your significant other attend, **so that he/she can support you in your care, understand your need for care and if he/she is remotely involved in any decision making.**

It was a pleasure examining you today. I'll let you get changed and see you out front.
